EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 5 ends in a period.

Claim 7 ends in only one period.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to point out or render obvious a method of fabricating a printhead for an inkjet printer, the printhead including a substrate carrying an array of nozzles for ejecting ink onto media to be printed; and an apertured nozzle guard to inhibit damaging contact with the nozzles, the method comprising the steps of forming the nozzles on the substrate using material etching and deposition techniques such that the nozzles are reinforced by sacrificial material, positioning the apertured nozzle guard over the exterior of the nozzles such that its apertures are in close registration with the nozzles, and subsequently, etching away the sacrificial material reinforcing the nozzles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See U.S. Patents 4,736,212; 4,975,718; 5,929,877; 6,139,761; and 6,341,842.
